¹ In its Article 7 report submitted in 2005, Afghanistan indicated that the Government had yet to develop a formal policy on the number of mines retained for development and training purposes. The Government on a case-by-case basis approves the number and type of APMs retained by UNMACA on behalf of the MAPA.

² In its report submitted in 2002, Argentina indicated that 1160 mines were retained to be used as fuses for antitank mines FMK-5 and that 1000 will be consumed during training activities until 1 April 2010. Additionally, in Form F, Argentina indicated that 12025 mines would be emptied of their explosive content in order to have inert mines for training.

³ In its Article 7 report submitted in 2010, BiH indicated that 2,255 mines were without fuses.

⁴ In its report submitted in 2001, Botswana indicated that a “small quantity” of mines would be retained.

⁵ In its reports submitted in 2006 and 2009, Brazil indicated that it intends to keep its Article 3 mines up to 2019.

⁶ In its report submitted in 2007, Brunei Darussalam indicated that there were no live anti-personnel mines prohibited by the Convention retained for the development and training in Brunei Darussalam. For these purposes, the Royal Brunei Armed Forces is using anti-personnel mines that are not prohibited by the Convention.

⁷ In its reports submitted in 2005, 2007 and 2008, Burkina Faso indicated that “nothing yet” was retained.

⁸ In its report submitted in 2009, Cameroon indicated in Form B that 1,885 mines were held and in Form D that some thousands of mines were held for training purposes.

⁹ 84 of the 1941 mines reported in 2007 are without fuses.

¹⁰ In its reports submitted in 2008, 2009 and 2010, the Democratic Republic of the Congo indicated that the decision concerning mines retained was pending.

¹¹ In its report submitted in 2005, Eritrea indicated that the mines retained were inert. In its report submitted in 2007, Eritrea indicated that 9 of the 109 mines retained were inert. In its report submitted in 2008, Eritrea indicated that 8 of the 109 retained mines were inert. In its reports submitted in 2010 and 2012, Eritrea indicated that 71 of the 172 mines retained for training were inert.

¹² In its reports submitted in 2006 and 2008, Guinea Bissau indicated that amongst the 109 retained mines, 50 POMZ2 and 50 PMD6 did not contain detonators or explosive. In its report submitted in 2009, Guinea Bissau indicated that the 50 POMZ2 were transferred for metal use and the 50 PMD6 were eliminated and used as wood.

¹³ In its report submitted in 2009, Mozambique indicated that 520 of the retained mines were inherited from an NPA mine detection training camp. This camp is not used as training falls outside of the IND scope of work so the mines will be destroyed in June 2009. In its report submitted in 2012, Mozambique reported that 98 of the 1683 mines retained under Article 3 were inert.

¹⁴ In its report submitted in 2007, New Zealand indicated that it retains operational stocks of M18A1 Claymores which are operated in the command-detonated mode only. Other than the M18A1 Claymores, the New Zealand Defence Force holds a very limited quantity of inert practice mines, used solely in the training of personnel in mine clearance operations, in accordance with Article 3 of the Convention.

¹⁵ In its report submitted in 2004, Papua New Guinea indicated that it had a small stock of command-detonated Claymore mines for training purposes only by the Papua New Guinea Defence Force.

¹⁶ In its reports submitted in 2007 and 2008, Senegal indicated that the 24 mines it retains under Article 3 were found during demining operations or in rebels stocks held before they were destroyed in August-September 2006. These mines have been defused and are used to train deminers. In its report submitted in 2010, Senegal indicated that 4 of the mines retained for training had been defused. In its report submitted in 2012, Senegal indicated that 13 of the 37 mines retained under Article 3 have been defused.

¹⁷ In its report submitted in 2009, Serbia indicated that all fuses for 510 PMA-1 type and 560 PMA-3 type had been removed and destroyed.
