

Saleh Hissein Hassan, Coordinator CND (Chad)

Thank you Madame Co-Chair

When it comes to international assistance and cooperation and as a receiving country, the problem lies most of the times on the lack or shortage of funds, but in some rare cases it lies on rechanneling funds already available for the states,

In this regards I would very respectfully request the donor community to be more flexible on rechanneling funds already available as long as it stays within the main pillars of the mine action.

Thank you Madame Co-Chair
