Parallel Programme for Victim Assistance Experts  
Tuesday 22 May, 2012

## Coordination in the implementation of National Plans

Claude Tardif  
Head of ICRC Physical Rehabilitation Programme  
ctardif@icrc.org

## What is Coordination?

- **Coordination** is the act of organizing, making different people or things work together for a goal or effect to fulfil desired goals in an organization.
- **Coordination** is a managerial function in which different activities are properly adjusted and interlinked.

## Why Coordination?

- To avoid duplication
- To make the best use of the resources
- To ensure that all stakeholders are moving in the same direction
- To ensure monitoring and evaluation
- To exchange information
- To plan

## Coordination at different levels

- At local level
- At regional / provincial level
- At national level

## Coordination among different actors

- Among providers who provide the same services
  - ▶ Ex: physical rehabilitation service providers
- Among providers who provide different services
  - ▶ Ex: physical rehabilitation service providers and economic inclusion
- Among different ministries
  - ▶ Ex: MoH – MoE - MoSA

## Coordination

- Coordination is essential to ensure the implementation of National Plans
- Coordination should not only be done at national level, but should be done at each level
- Coordination should be done among:
  - ▶ providers who provide the same services
  - ▶ providers who provide different services
  - ▶ different ministries
