

Islamic Republic of Afghanistan

Victim Assistance in Afghanistan

Dr. Faizullah Kakar

Deputy Minister of Public Health

April 2007

Current Situation: Landmines and ERW Victims

An average of 63 Afghans fell victim to mines and ERW each month during 2006: a more than 50% decrease from just five years ago

Socio-Reintegration Practices and Policies for All People with Disabilities

First National Workshop of Victim Assistance

Government Commitment to Inter-ministerial
cooperation and coordination of disability services

Ministry of Foreign Affairs - August 2006

Disability Awareness

Disability Awareness Training implemented by Disabled Persons Organizations and NGOs

Basic Health Services Rehabilitation and Orthopedic

Fewer than 150 orthopedic technicians and 110 artisans provide services in 19 out of a 34 provinces.

Only 20 to 40% of people with disabilities are believed to have access to rehabilitative services in Afghanistan.

Education Opportunities

School for the Deaf in
Mazar-I-Sharif,
Northern Afghanistan

Blind Association Class in Herat
City, Western Afghanistan

Support to Disabled Persons Organizations and National NGO Capacity Development

Paralympics Football Team

Afghan Disability Union working
for all disabled persons

Accessibility

The office of Labor, Social Affairs, Martyrs and Disabled, Department of Disability is one of the few accessible government buildings in Kabul City.

All new school constructions and rehabilitations are to be made accessible.

Employment Opportunity

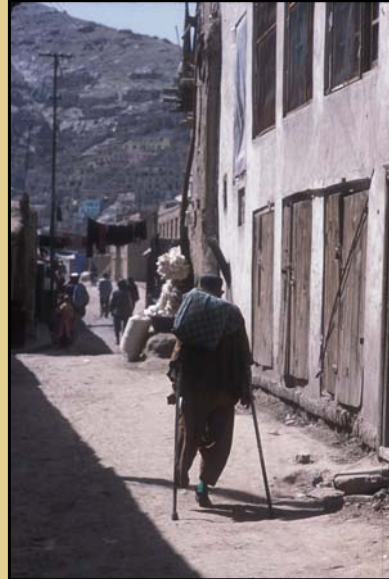

Working for the UN
Kabul

Self Employed Storekeeper – Herat City

There is still much to be done in Afghanistan.

**The Government
of Afghanistan is
committed to
integrated
approaches
and inclusive
practices.**

Islamic Republic of Afghanistan

**Victim Assistance in
Afghanistan**

Thank you
