Land Release: Through Technical Survey Practices

- Survey and minefield information
- Minefield boundary
- Marking (short term and permanent)
- Area reduction

Mine/ERW Risk Education

- Districts of Community-Based Mine Risk Reduction
- Districts of Community-Based UXO Risk Reduction
- Volunteer Network with Villagers

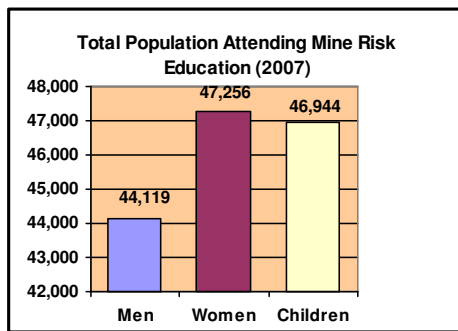

- Mine/UXO risk education
- Liaison with the local authorities
- Information collection and update
- Focal point for District
- Close collaboration with Mine Action Teams
- Village map update
- Mine action planning
- Community development planning

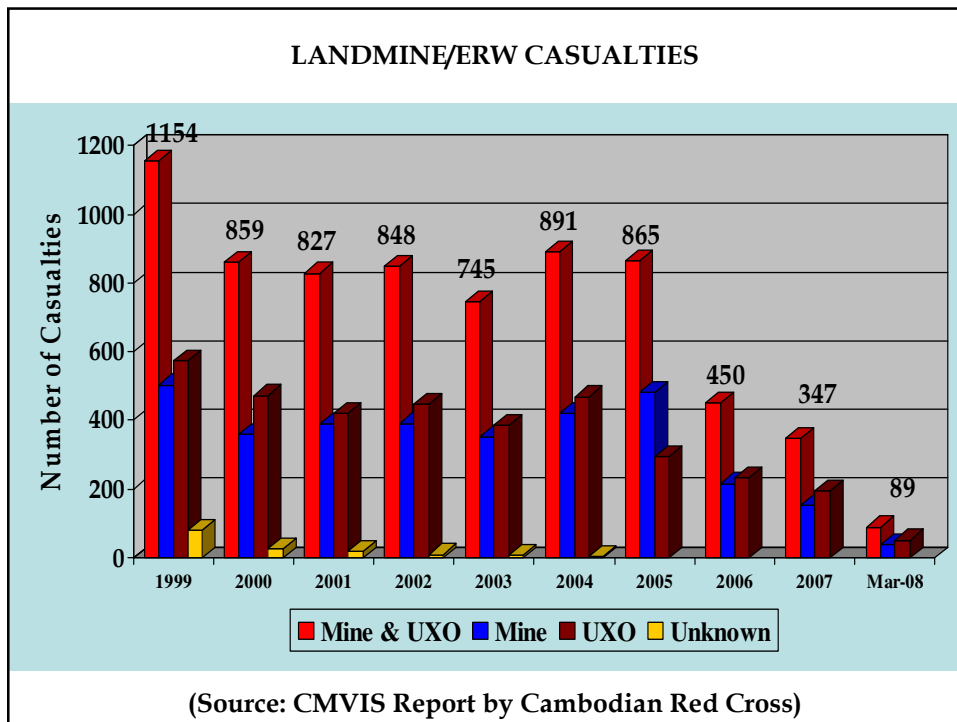

Mine/UXO Risk Education and Reduction Teams (2007)

MRER is a quick response multi-skill mine action team which is deployed to:

- Provide mine/UXO risk education
- Collect mines/UXO reported by villagers
- Conduct mine/UXO disposal

- Very effective quick response
- Very mobile
- Suitable for small and medium tasks
- Very effective UXO risk reduction
- Work closely with CBURR
