

Polish Government adopted in 2009, as we have already informed, an official position on the ratification of Ottawa Convention, due in 2012. The relevant documents are being prepared and will be submitted to the Parliament. After parliamentary debates it will be then the competence of the President to sign the ratification document.

In the meantime, it is worth to reiterate, Poland does not produce, use, buy, neither export antipersonnel mines. We annually submit on voluntary basis the report envisaged by Art. 7. We also continue to ^{remove} ~~des~~ from active inventory and destroy the remaining mines.
