

Mr. President,
Your Royal Highness,

On behalf of the landmines survivors in far away villages. I would like to thank all governments, ICBL, and NGO for coming to the 8th Meeting of State Parties. You have come from 1st meeting till 8th meeting. I know you have worked hard with the planning and activity to help survivors and others human beings, both States Parties and Non State Party.

You talk about rights, law, project, plans, families, donors, mines clearing programme, and so on. Please continue to act. **Now I have a question.**

Why are the Non State Party not signing the treaty? When you actually do, what the treaty ask. And why do not all of you Ban Cluster Bomb? So there are not more victims.

Every year I worked with 700 landmines survivors on mines affected communities. I ask you to think a little about their heart and their feeling; I am a landmine survivor when I lost both legs I lost my heart, my feeling and my hope. And what do you think my family lost, I believe they lost even more than me. Please think deeply about the real situation of the very poor. And please continue to give your compassion, charity, your commitment to human rights to the landmine survivor.
