States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.

State [Party]: ALBANIA reporting for time period from 1 January 2017 to 31 December 2017

1. VICTIM ASSISTANCE

There are at least 1002 UXO casualties (151 killed and 851 injured) all over Albania. There is plan aiming to support the mine and UXO victims throughout Albania. The plan complies with several Disarmament International Treaties ratified by Albania, such as Anti-Personnel Mine Ban Treaty, Convention on Certain Conventional Weapons and Convention on Cluster Munitions Convention. The implementation of this plan is contributing to the emergency and continuing medical care, physical rehabilitation, psychosocial support, socio -economic reintegration, data collection, relevant laws and policies for all mine/UXO victims throughout Albania.

A “Needs Assessment of Social-Economic and Medical needs of marginalized Explosive Remnants of War (ERW) victims in Albania” supported by the Austrian and US Government has been completed in 2016. The focus of the assessment was to review the status of the survivors, identifying their specific needs and drafting due recommendations for assistance to the Government and donors. To this purpose, a national workshop with participation of all stakeholders including donors was held in Tirana to present the findings and more important the medical/rehabilitation and socio –economic needs of survivors and/or their families.

Based on the above Needs assessments, US Department of State through ITF Enhancing Human Security funded two projects in Victim Albania during 2017. The first project supported the vocational training of 25 survivors. A selection process is done and 25 survivors have already completed the vocational training courses in Albania. The second project supported Prosthetics Workshop with raw materials and components for the repair and production of prostheses and orthoses.

During the reporting period, at least 31 new prostheses and 41 major repairs are done to amputees in need at the Prosthetic Workshop in Kukës Hospital and at 1481 physiotherapy sessions are done to 135 patients.

Albania needs support to further address the needs of Mine/UXO survivors and other persons with Disabilities. Albania has already identified for 2018 the financial gaps and needs in order to fulfill obligations under the APMBT, other disarmament conventions and the CRPD.

All activities were monitored and coordinated by Albanian Mine and Munitions Coordination Office (AMMCO) and carried out in cooperation with various implementing partners including the Ministry of Health and Social Protection, Kukës Regional Hospital, and Directorates of Public Health, UNDP Albania, International Trust Fund Enhancing Human Security (ITF), University Rehabilitation Institute Republic of Slovenia and the NGO “Albanian Association for Assistance Integration and Development” (ALB-AID).
